

DERMAL FILLERS

Smooth Wrinkles and Replenish Volume

WHAT IS A DERMAL FILLER?

At Sona MedSpa we offer several options for non-surgical facial rejuvenation which include: Botox®, Juvéderm™, and Radiesse®.

RADIESSE: Radiesse is made of very small, smooth microspheres, which are suspended in a water-based gel. This “partnership” between Radiesse and your own body creates a natural look. Over time, your body absorbs the gel while collagen has started to grow and infiltrate the area, replacing the gel with your own, natural tissue, and eventually being naturally absorbed into your body. Radiesse dermal fillers typically last a year or more, longer than most other skin fillers, saving you time and money. The results of a Radiesse treatment are immediate.

JUVÉDERM: Juvéderm helps to instantly restore your skin’s volume and smooth away facial wrinkles and folds, like your “smile lines” or “parentheses”. This is a smooth consistency gel made of hyaluronic acid—a naturally occurring substance in your skin that helps to add volume and hydration. Sona’s medical professional will ease Juvéderm injectable gel under the skin to provide a smooth, natural look and feel. Juvéderm is a simple, nonsurgical treatment, with minimal down time. The results last up to 12 months or more.

Sona’s clinical staff will help you determine which filler is best for you. For some clients, several dermal fillers are used at once to obtain the desired effect. Fillers are often used in combination with Botox to create impressive non-surgical facial rejuvenation. All of our fillers are FDA approved and do not require an allergy test.

WHY CHOOSE SONA MEDSPA?

Sona has been awarded the prestigious Black Diamond status by Allergan, makers of Botox and Juvéderm, ranking Sona among the top 1% of providers in the country. You can feel confident choosing Sona’s experience and certified, trained medical providers. Plus, when you join the Brilliant Distinctions program, you earn points with each treatment toward discounts on future treatments. Ask your consultant for details today.
