Sona Dermatology & MedSpa Introduces New Dermatologist at Fort Worth Location

Full-Spectrum Dermatology for All Ages

FORT WORTH, TX - It was, as Oprah says, a “lightbulb moment.” How could Sona MedSpa strengthen its already well-established cosmetic services practice? The answer: by incorporating medical dermatology – thus making Sona Dermatology and MedSpa the place to go for comprehensive skin care.

Sona Dermatology & MedSpa is pleased to welcome Dr. Heather Reagin to its newly renovated Fort Worth location beginning in August. Dr. Reagin treats a wide spectrum of general dermatology concerns, including acne, eczema, psoriasis, skin cancer screenings, skin tag treatment and mole removal, just to name a few.

Dr. Reagin offers comprehensive, patient-centric skin care to patients of all ages. “I am here to create a partnership with my patients. My mission is to provide exceptional care through listening, explaining the diagnosis in detail, and providing a customized treatment regimen for each patient. Together, we can restore the confidence you have in your skin and hair.” says Dr. Reagin.

Dr. Heather Reagin grew up in Oklahoma and completed her baccalaureate studies at the University of Oklahoma, where she met her husband, a DFW native. She earned her Master of Science from the University of North Texas Health Science Center and was awarded Outstanding Student of the Year. She then earned her medical degree with Honors from the University of North Texas Health Science Center where she graduated Valedictorian. Dr. Reagin earned numerous awards for her academic achievements as well as for her commitment to community service.

Dr. Reagin completed her internship in internal medicine at Saint Joseph Hospital in Denver, Colorado. After her internship she returned to Fort Worth to complete her dermatology residency training. During residency, she held many leadership roles, including serving as Chief Resident.

Her clinical interests include psoriasis, acne, hair loss, skin cancer prevention and treatment, as well as cosmetic dermatology.

She is a fellow of the American Academy of Dermatology and member of American Society for Dermatologic Surgery, Texas Dermatological Society, and Fort Worth Dermatological Society.

In her free time, she enjoys spending time with her husband and daughter, traveling, photography, and watching OU football.

Sona Dermatology and MedSpa offers prompt appointments as well as convenient online booking – both of which will come as welcome news to patients of all ages who are accustomed to the frustration of months-long wait times for a dermatology appointment.

Sona Dermatology and MedSpa is located at 2421 W. 7th St, in Fort Worth. The practice accepts most major insurances, but also offers affordable self-pay rates for out-of-network or uninsured patients - to make treatment for medical skin care as accessible as possible for all patients. For more information on the practice, accepted insurances, and to book an appointment online - visit sonaskin.com.
